James Carter
Front-End Developer
525 N Tryon Street, NC 28117

(123)-456-7890   jamescarter@gmail.com

Experienced Front-End Developer proficient in building responsive web and mobile applications. Expertise in React, Angular, and Firebase, with a strong focus on creating intuitive user interfaces and scalable solutions. Skilled in developing e-commerce platforms, social media apps, and task management systems. Proven ability to collaborate with teams and deliver high-quality projects that improve user experience and operational efficiency

Projects

E-commerce Platform   **May 2022 - Feb 2023**

Developed an e-commerce platform using React, Node.js, MySQL, and Stripe API integration. Implemented product browsing, cart functions, and secure payment processing. Ensured fast load times and responsive design, resulting in a 20% increase in user retention.

Social Media Mobile App   **Nov 2021 - Aug 2022**

Developed a social media mobile app using React Native, Firebase, and Amazon S3. Implemented real-time messaging and media sharing features, achieving a high uptime and smooth cross-platform performance.

E-commerce Platform   **May 2022 - Feb 2023**

Developed an e-commerce platform using React, Node.js, MySQL, and Stripe API integration. Implemented product browsing, cart functions, and secure payment processing. Ensured fast load times and responsive design, resulting in a 20% increase in user retention.
